

# TuumIO Business Plan 2025

## Revolutionizing the Digital Ecosystem through Decentralization and Innovation

---

### *Executive Summary*

TuumIO is committed to transforming the digital ecosystem by enabling decentralized applications (dApps), data, and asset management. Through cutting-edge technological innovations, strategic partnerships, and robust product development, we aim to lead the way in decentralized network solutions.

This business plan outlines our vision, achievements, and actionable strategies for growth and sustainability from 2025 and beyond.

---

### What is TuumIO?

TuumIO is a platform that empowers users to build:

- Decentralized Applications (dApps).
  - Decentralized Identifiers (DID).
  - Decentralized Data.
  - Decentralized Assets.
- 

### Types of Networks Built on TuumIO

TuumIO supports the creation of networks across diverse sectors:

- **Commercial networks:** Tailored for business efficiency and scalability.
  - **Government networks:** Built for security, compliance, and public service.
  - **Community networks:** Focused on collaboration and local empowerment.
- 

### Client Spectrum

We cater to a wide variety of clients, including:

- **Healthcare organizations.**
  - **Commercial enterprises.**
  - **Government agencies.**
  - **Community-based initiatives.**
-

## Revenue Streams

Our revenue is generated from multiple sources:

1. **Node Fees:** Charged for running nodes within the network.
2. **Gas Fees:** Transaction-based fees on the platform.
3. **Services:** Custom solutions and consulting.
4. **Platform Licensing:** Access to TuumIO's core functionalities.
5. **Miscellaneous Activities:** Other monetized offerings.

---

## Achievements and Rebranding

We have been in business for over seven years, consistently pursuing a strategic approach to decentralized networks. In 2024, we rebranded to **TuumIO** to reflect our broader ambitions:

- Diversifying our client base.
- Expanding revenue streams.
- Growing further a global community.
- Creating innovative applications.

Since inception, we have built numerous networks for our clients, including:

### **Provider Reward Network**

**US, Delaware – September 30, 2019** — Solve.Care has launched its Care.Wallet for Physician for primary care providers of Arizona Care Network (ACN). This is the first solution utilizing blockchain technology and digital currency adopted by a leading Accountable Care Organization.

### **Diabetes Care Administration Network**

**Tallinn, Estonia – June 6, 2019** – Solve.Care, a global healthcare platform which uses blockchain technology for the administration, coordination and payments of healthcare benefits, has announced a collaboration with Boehringer Ingelheim Pharmaceuticals, Inc., to launch a patient-centric care network on the Solve.Care platform. The Diabetes Care Administration Network aims to improve the well-being of patients with diabetes, and who may also be at an increased risk for cardiovascular disease.

**PHOENIX (June 11, 2019)** – Arizonans with diabetes will soon have a new resource to proactively address symptoms, including their increased risk of cardiovascular complications. Arizona Care Network, a physician-led accountable care organization, will make their Care.Wallet available to more than 25,000 people with diabetes in Maricopa and Pinal counties. This Diabetes Care Administration Network was produced in collaboration with Solve.Care, a global healthcare platform.

### **NON-EMERGENCY MEDICAL TRANSPORTATION Network**

**Tallinn, Estonia – July 9, 2019** – Solve.Care, a global healthcare platform that uses blockchain technology for the administration, coordination, and payments of healthcare benefits, has announced a partnership with Uber Health, allowing healthcare organizations to provide accessible and affordable rides to patients and caregivers.

## Team.Care

**Singapore – 11 June 2020** – Global healthcare technology platform Solve.Care has today announced the launch of Team.Care, a workforce health management solution with a special focus on wellbeing and Covid-19 risk.

## Care.Labs

**Tallinn, Estonia – December 07, 2021** – Solve.Care, the global healthcare blockchain technology company, announced today that they have launched their new development portal Care.Labs.

---

## Looking Ahead: Strategic Three-Year Plan

- 1. 2025: Focusing on Revenue and User Growth**
  - **Goal:** Launch and support networks that attract more nodes and users.
  - **Examples:**
    - Care.Trials Network expansion.
    - AI Network for advanced applications.
    - Expanding decentralized application offerings.
- 2. 2026: Opening the Platform**
  - Open-sourcing the TuumIO platform to enable developers and communities worldwide to build, extend, and innovate.
- 3. 2027: Becoming a Viable Web2 Alternative**
  - Replace existing websites and enterprise applications with decentralized, scalable, and secure solutions.

---

## Key Initiatives and Partnerships

### *1. Collaboration with AI Projects*

TuumIO will collaborate with leading AI initiatives to integrate advanced AI capabilities into the platform:

- **Adaptability:** Showcasing platform flexibility with scalable AI solutions.
- **Innovation:** Co-developing next-generation AI-driven applications.
- **Market Positioning:** Cementing TuumIO as a leader in AI-integrated decentralization.

### *2. Partnership with Goliath Engineering*

TuumIO has partnered with Goliath Engineering to address government IT needs:

- **Focus Areas:** Department of Defense, Veterans Affairs, and other U.S. government agencies.
- **Impact:** Building secure, scalable, and regulatory-compliant networks.
- **Reputation:** Strengthening our role as a trusted government IT partner.

### *3. Upcoming Product Launches*

#### **Intelligent Vault:**

- **Objective:** Enhance privacy and data security for users.
- **Features:** Advanced encryption, decentralized data storage, and user-centric design.

- **Impact:** Establishing TuumIO as a privacy-first solution provider.

#### Tu-Node Provider Program:

- **Objective:** Expand network capabilities through incentivized node participation.
- **Impact:** Encouraging ecosystem growth and user engagement.

#### 4. Scaling Care.Trials Network

- **Global Expansion:** Onboarding 10 new distributors by Q4 2025.
- **Enhanced Features:** Improving scalability to meet global demand.
- **Partnerships:** Collaborating with healthcare organizations for widespread adoption.

---

#### Financial Projections

- **Revenue Growth:** Anticipated 10% year-over-year growth.
- **R&D Investment:** Allocating 30% of revenue to innovation and technological leadership.
- **Operational Scalability:** Optimizing resources to support global network expansion.

---

#### Strategic Goals for 2025

1. Launch and fully deploy **Intelligent Vault** by Q2 2025.
2. Expand the Care.Trials Network globally, targeting 10 distributors by Q4 2025.
3. Secure two additional U.S. government partnerships via Goliath Engineering.
4. Achieve 30% of total revenue from AI collaborations by year-end.

---

#### Capital Raising Plan

TuumIO plans to raise capital through:

- Venture capital investments.
- Strategic partnerships with clients.
- High-net-worth individual contributions.

---

#### Company Structure

TuumIO is incorporated in Estonia, with key operational hubs in strategic global locations. Our primary focus remains on:

- Network and user growth.
- Revenue diversification.
- Application variety and ecosystem expansion.

## Conclusion

TuumIO's roadmap for 2025 demonstrates our dedication to innovation, collaboration, and global impact. By focusing on revenue growth, network scalability, and groundbreaking product development, we are poised to lead the evolution of decentralized solutions.

We invite stakeholders, partners, and investors to join us in shaping the future of decentralization and innovation.
